

WinGate SDK

Welcome to the WinGate SDK documentation

Here you can find out how to create your own WinGate modules to add functionality to WinGate as well as use exposed functionality from existing WinGate modules in your own products.

Compatibility

Below is a table describing the versions of the WinGate SDK and their compatible WinGate versions.

SDK Version	WinGate Version	Compiler/Toolset
2.0.0.5926	9.0.0.5902 to 9.0.6.5929	VS2015 v140

The WinGate SDK specifications may be subject to change. Please contact Qbik (sdk-support@qbik.com) if you have questions or wish to verify the SDK version of a WinGate release.
